# The Top 20 On-Site Interpreting Companies: 2014

by Vijayalaxmi Hegde

On-site interpreting makes up nearly 10% of the global language services market and is valued at approximately US\$3.6 billion. In this brief, Common Sense Advisory presents the largest global providers of this service based on the amount of reported revenue (see [Table 1](#)). The list features 21 companies, with two tied for the 10<sup>th</sup> position. We ranked telephone interpreting suppliers separately (see "[The Top 10 Telephone Interpreting Companies: 2014](#)," Jul14).

Companies that appear in these rankings participated in our annual survey of the language services market and provided information on revenue earned from these particular services in the fiscal year 2013. Participation in the survey as well as the rankings is voluntary.

**Take note:** While all revenue figures mentioned in this brief relate to on-site interpreting revenue only, other data such as the number of employees and offices represent the service and technology revenue earned by the entire company.

LanguageLine Solutions and Capita Translation and Interpreting Limited, which appeared in "[The Top 15 Interpreting Companies: 2013](#)" (Aug13), declined to provide a detailed composition of their revenue from on-site, telephone, and video remote interpreting services. Hence, they do not appear in this ranking or that of telephone interpreting providers. However, they do appear in "[The Top 100 Language Service Providers: 2014](#)," Jun14, and in the relevant regional rankings ("[The Top Language Service Providers in Northern Europe in 2014](#)," Jun14, and "[The Top Language Service Providers in North America in 2014](#)," Jun14).

The other company that appeared in last year's interpreting ranking but is missing from this year's list is ONCALL Language Services Pty Ltd. It did not participate in this year's global market survey.
